

NYS ConnectALL Project TOWN and VILLAGE OF NICHOLS

Bringing affordable broadband services to your homes/businesses.

LEARN MORE: PUBLIC MEETING
THURSDAY, JULY 14 at 7:00 PM
NICHOLS FIRE DISTRICT COMMUNITY HALL
39 W RIVER RD, NICHOLS

Local Partners

Southern Tier Network (STN) is collaborating with Tioga County, the Town of Nichols, and the New York Power Authority (NYPA) to build broadband infrastructure in the Town and Village of Nichols.

Affordable Access

STN is building an open access, fiber-to-the-premise network to reach unserved and underserved households in the Town and Village of Nichols. Nichols has been named one of four communities to take part in New York State's ConnectALL program, an initiative aimed at bringing affordable, and reliable broadband internet access to unserved/underserved rural communities across the state. This program will work to transform New York's digital infrastructure and expand broadband access, affordability, and equity statewide.

Summer 2022

This is a multi-phase project that starts NOW. Check NicholsFiber.com to get project information, see where we're building, and to sign up!
